PROFILE SUMMARY

Professional with an MCA in Computer Science and 3+ years of freelance full stack development experience, alongside Data Science and Machine Learning training. Skilled in Python, Machine Learning, Generative AI, LLMs, RAG, AI Agents, and full-stack application development using React.js, Next.js, Django, FastAPI, and Node.js. Strong foundation in software engineering principles, AI/ML techniques, data processing, and modern development practices.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript (ES6+)

Generative AI & Agentic AI: LLMs, Google Gemini, Llama, Hugging Face Transformers, LangChain, LangGraph, RAG, Prompt Engineering, Context Engineering, Embeddings, Vector Databases (ChromaDB, FAISS), Fine-Tuning, AI Agents, MCP, CrewAI, AutoGen, Agent Memory, Multi-Agent Systems, Agent Evaluation, Tracing & Observability, Tool Calling

Machine Learning, Deep Learning & NLP: Scikit-learn, TensorFlow, PyTorch, Supervised & Unsupervised Learning, Regression, Classification, Clustering, Feature Engineering, Model Evaluation, Hyperparameter Tuning, NLTK, spaCy, OpenCV, YOLO, MediaPipe, OCR

Data Science & Analytics: Pandas, NumPy, SciPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA), Data Cleaning, Statistical Analysis, Data Visualization, A/B Testing, Power BI, DAX, Microsoft Excel

Frontend Development: HTML5, CSS3, Bootstrap, React.js, Next.js, Redux Toolkit, React Router

Backend & API Development: FastAPI, Django, Django REST Framework, Flask, Node.js, Express.js, REST API Development, API Integration, Postman, Authentication & Authorization (JWT, OAuth 2.0), Role-Based Access Control (RBAC)

Databases & Data Engineering: MySQL, PostgreSQL, MongoDB, Apache Spark, Apache Kafka, Databricks, Snowflake, ETL/ELT Pipelines, Data Warehousing

Cloud, DevOps & MLOps: AWS, Docker, Linux, Git, GitHub, GitHub Actions, CI/CD, MLflow, Model Deployment & Monitoring

Software Engineering & Testing: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), System Design, Unit Testing, Integration Testing, API Testing, Pytest, Jest, Playwright, Agile, Scrum

WORK EXPERIENCE

Full-Stack Developer Jul 2023 – Oct 2026

Freelancer | Remote

- Developed customized full-stack web applications and software solutions based on client requirements using Python, Java, JavaScript, React.js, Node.js, Django, and FastAPI.
- Designed and integrated frontend interfaces, backend services, REST APIs, and SQL/NoSQL databases, implementing authentication and authorization (JWT, OAuth 2.0), role-based access control (RBAC), and application workflows.
- Addressed development issues through debugging and testing, managing projects across requirements, development, deployment, and maintenance using Git, GitHub, and Docker.

Data Science & Machine Learning Intern Jul 2025 – Mar 2026

Luminar Technolab | Kochi, Kerala, India

- Processed and analyzed datasets using Python, Pandas, and NumPy, performing data cleaning, preprocessing, exploratory data analysis, and feature engineering. Created visualizations and reports using Matplotlib, Seaborn, and Power BI.
- Gain practical knowledge of Machine Learning, Deep Learning, and NLP model development and evaluation using Scikit-learn and TensorFlow. Explored Computer Vision techniques using OpenCV, YOLO, and OCR for image processing, object detection, and text extraction.
- Explored Generative AI applications using LLMs, Transformer architectures, Gemini, Ollama, and Hugging Face. Practiced prompt engineering and RAG workflows involving embeddings, document processing, and vector databases, with exposure to agentic AI and generative model fine-tuning.

EDUCATION

Master of Computer Applications (MCA) | Mahatma Gandhi University, Kerala Sep 2023 – Mar 2025

Bachelor of Computer Applications (BCA) | Mahatma Gandhi University, Kerala Nov 2020 – Mar 2023
